June 13, d& wly THE FLORENCE SEWING MACHINE CO.

29 Dauphin Street,

MOBILE, ALA. Offers to the Ladies of Missssippi, the celebrated

Reversible Feed Machine!

Dauphin Street ......2

We claim for the Florence the following advantages over any and all Sewing Machines in the Warld.

It makes four different stitches, the lock knot, fouble lock and double knot, on one and the same machine—each stitch being alike on both sides of the machine—cach stitch being alike on both sides of the fabric.

Every Machine has the reversible feed motion, which enables the operator, by simply turning a thumb screw to have the work run either to the right or left, to stay any part of the seam or fasten the ends of seams, without turning the fabric.

Changing the length of stitch, and from one kind of stitch to another, car readily be done while the Machine is in motion.

The needle is enaily adjusted, and does not skip stitches.

It is almost noiseless, and can be used where quiet is necessary.

Its motions are all positive; there are no springs to get out of order, and its simplicity enables any one to operate it.

It does not require finer thread on the under than for the upper side, and will sew across the heaviest seams, or from one to more thicknesses of cloth, without change of needle, tenison, breaking thread, or skipping stitches. skipping statches.

The Hemmer is easily adjusted, and will turn any width of hem desired.

It will hem, fell, bind, gather, braid, quilt, and gather and sew on a ruffle at the same time. It has no springs to get out of order, and will last a life-time. It is very simple, and easily understood and worked.

The taking up of the slack thread is not performed by the irregular contraction of a wire coil or uncertain operation of springs. The precision and accuracy with which the Florence draws the thread into the with which the Florence draws the thread into the cloth is unappressched in any Sewing machine hither-to offered to the world.

We furnish each Machine with "Barnums self Sewer." which guides the work itself, and is of incalculable value, especially to inexperienced operator. While possessing the above and many other advantages, the Florence is sold at corresponding prices with other first-class Machines, and a correlal examination will fully substantiate all that we have claimed for it, and justify the assertion we now make, that it is the best Sewing Machine in the world.

We warrant every Machine to be all that we claim for it, and to give entire satisfaction, and will give a written warranty, if required.

P Agents wanted everywhere in Alabama and Mississippi, with whom liberal arrangements will be made.
